Company Profile

SJK Co., Ltd. — Your Japan-Based OEM/ODM Partner

About SJK Co., Ltd.

SJK Co., Ltd. is a Japan-based nutraceutical company specializing in premium OEM/ODM and private label solutions through a trusted network of GMP-certified Japanese manufacturing partners. We connect global brands with Japan's world-class supplement manufacturing capabilities — providing end-to-end support from formulation to export documentation.

Why Choose SJK

Six compelling reasons to partner with us

Japanese Quality

Products manufactured in Japan under strict GMP standards, ensuring safety, purity and regulatory compliance.

Flexible MOQ

We accommodate small to large order quantities — ideal for emerging brands and established distributors alike.

OEM / ODM Solutions

Custom formulations, capsule specifications, and dosage forms tailored to your brand and target market.

Private Label Ready

Complete private label service including label design support, packaging selection, and brand customization.

Export Documentation

Full export support: Certificate of Analysis, Certificate of Origin, and customs paperwork as required.

English Communication

Dedicated English-language support for seamless communication throughout the entire project lifecycle.

Why Made in Japan?

日本製品の品質

Japan is globally recognized for uncompromising standards in food safety, manufacturing precision, and ingredient traceability.

1

World-Class GMP Facilities

Japanese manufacturers operate under pharmaceutical-grade GMP standards exceeding many global requirements.

2

Ingredient Traceability

Strict supply chain documentation from raw material origin to finished product — fully auditable.

3

Precision & Consistency

Japanese manufacturing culture demands zero-defect quality, ensuring batch-to-batch consistency.

4

Trusted Globally

"Made in Japan" is one of the most recognized quality signals in nutraceuticals and health products.

5

Regulatory Expertise

Deep knowledge of international export compliance, FFC registration, and customs requirements.

Quality & Certifications

Our manufacturing partners are certified to the highest international standards

JIHFS GMP

Japan Institute for Health Food Standards

GMP certification from Japan's leading health food standards body. Ensures rigorous manufacturing controls for safety, potency and labeling accuracy across all product categories.

Organic JAS

Japanese Agricultural Standard — Organic

Official Japanese organic certification for organically grown and processed agricultural ingredients. Recognized internationally as equivalent to EU Organic and USDA NOP standards.

D-U-N-S

Dun & Bradstreet Business Registration

SJK Co., Ltd. holds an active D-U-N-S registration — the global standard for business credibility and supply chain verification, used by Fortune 500 companies worldwide.

Manufacturing Network

GMP-Certified Japanese Partner Facilities

SJK Co., Ltd. coordinates with a carefully vetted network of GMP-certified Japanese supplement manufacturers. This model provides clients the flexibility, quality assurance, and production scale of Japan's best facilities — without single-factory constraints.

◆ GMP-Certified Partners

All manufacturing partners hold active JIHFS GMP certification and undergo regular facility audits.

◆ Wide Dosage Form Capability

Tablets, hard capsules, softgels, powders, stick packs, liquids, gummies — full-spectrum production.

◆ Capacity Flexibility

From small development batches to large commercial runs — production scaled to your demand.

◆ Ingredient Sourcing

Access to premium Japanese and internationally sourced ingredients with full traceability.

◆ Quality Inspection

Multi-stage QC: raw material testing, in-process checks, finished goods CoA and third-party verification.

◆ Export Preparation

Partners experienced in producing export-compliant products for EU, US, Middle East, and Asian markets.

OEM / ODM Process

From initial inquiry to export delivery — a clear, supported process

Global Export Markets

Serving clients across five continents with Japan-quality supplements

Europe

EU regulatory support · CE documentation
France, Germany, UK, Netherlands, Scandinavia

North America

FDA compliance support · DSHEA-compatible
USA, Canada — full export documentation

Middle East

Halal certification guidance · GCC markets
UAE, Egypt, Saudi Arabia, Kuwait

Asia Pacific

ASEAN export experience · FFC registration
South Korea, Taiwan, Singapore, Hong Kong

Oceania

Australia & New Zealand market entry
TGA-awareness · Full CoA documentation
